Interoffice Memo

DATE April 14, 2020

FILE P.I. 0015537, Carroll County, GDOT District 6
SR 1/US 27 @ Little Tallapoosa River in Carrollton

FROM Kim Nesbitt, State Program Delivery Administrator

R. Cottrell for

TO R. Christopher Rudd, P.E., State Design Policy Engineer
Attn: Dave Peters, P.E., State Conceptual Design Group Manager

SUBJECT PI 0015537 - Request for Location and Design Approval

Description and Project Proposal: The location of this project is along US 27/SR 1 in the city of Carrollton in Carroll County, Georgia. The project would replace the bridge over the Little Tallapoosa River. The proposed project consists of rebuilding the bridge in place while utilizing staged construction to keep traffic open during construction. The profile of the bridge may be raised approximately 3 feet due to hydraulic requirements. The proposed roadway will consist of four 12-foot lanes, a 14-foot flush median and 12-foot urban shoulders. The total project length is approximately 0.5 miles.

Concept Approval Date: November 15, 2018.

Concept Update: The project length was extended to better accommodate the construction staging with the placement of cones only at the beginning of the project. The bridge length was also extended from 264-feet as listed in the concept to 296-feet. The sidewalk area on the eastern side of the bridge (staged construction width), which was 18-feet wide, was reduced to 5.5-feet wide. The additional width will be striped out, preventing use as a travel lane.

Environmental Document: Document Type: Categorical Exclusion Approval Date: May 1, 2020

Temporary State Route Needed: ☒ No ☐ Yes ☐ Undetermined

Public Involvement: No Public Involvement meeting was held on this project. There will not be any off-site detour, as traffic will be maintained throughout the construction. No public controversy was anticipated which would facilitate a public involvement plan.

Consistency with Approved Planning: The design description as presented herein and submitted for approval is consistent with the approved Concept Report.

Recommendations: Recommend that the location and design for the project be approved and that the attached Notice be approved for advertising.

NOTICE OF LOCATION AND DESIGN APPROVAL

P. I. 0015537 CARROLL COUNTY

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: **May 28, 2020**

This project is located in the city of Carrollton in Carroll County, within Land District 10 approximately 0.4 miles south of the SR 113 intersection. This project would replace the bridge along SR 1/US 27 over the Little Tallapoosa River by staging the bridge construction to keep traffic open during construction. The proposed roadway consists of four 12-foot lanes with 12-foot urban shoulders and a 14-foot flush median. The proposed bridge will have four 12-foot lanes, a 14-foot flush median, and 5.5-foot sidewalks on each side.

NOTE: Ordinarily the maps or plats would be available for public review at our area office. Due to current COVID-19 measures, members of the public are not allowed to enter state buildings at this time. We apologize for the inconvenience. Anyone with questions or concerns about the project should call or email the area engineer listed below. To obtain copies of the drawings, maps or plats, please follow the instructions outlined below.

Brian Whelchel, Area Manager
District 6 Area 3
770-646-5522
bwhelchel@dot.ga.gov
4323 US Highway 27
Buchanan, GA 30113

Any interested party may obtain a copy of the drawings or maps or plats or portions thereof by paying a nominal fee and requesting in writing to:

Kimberly W. Nesbitt, Program Delivery Administrator
GDOT Office of Program Delivery
Attn: Debbie Cottrell, Project Manager
600 West Peachtree Street, 25th Floor
Atlanta, GA 30308
